The Arkadi M. Rywlin (AMR) International Pathology Slide Seminar Club is a non-profit organization created in 1991 to promote and advance the exchange of ideas among academic pathologists throughout the world in a spirit of cooperation and collegiality. The format of the symposium will be that of an extended slide seminar. A total of 81 selected cases will be presented and discussed by the faculty. A set of glass slides from the cases will be distributed (to the first 120 registered participants), and a syllabus will be distributed to all participants with a discussion of the cases. The symposium will focus mainly on diagnostic problems and controversies in surgical pathology utilizing a case study format and will be of interest to general surgical pathologists and trainees in pathology.

The symposium is arranged by:
